

# IBIZA GONG MEDITATION

Gong Master - Konstantin Jagoulis

## GONG MEDITATIONS WITH PLANET GONGS FOR THE HARMONY OF BODY, MIND AND SPIRIT.

Deep relaxation with very effective natural planet sounds, played by Konstantin Jagoulis (Kosma Solarius).

The combination of the highly trained sensitivity and years of live performing experience, makes his gong sessions a very unique and deep experience. The natural sounds of planet gongs are touching the audience on a holistic level and they are useful for deep meditations and spiritual experiences.

Since 2007 he was living for eight years on the island Koh Phangan in Thailand, where he played the planet gongs at **Orion Healing Center** (*video*) and included the gongs also at the opening live shows with his Space Brothers project at the **Half Moon Festival**.

During the summer months 2015/2016 he visited Moscow and performed at the famous **Midsummer Night's Dream** (*video*), had the honor of playing as first musician ever on the rooftop at the **Gorky Park Museum** (*video*) for the 77th park anniversary and was holding gong meditations at yoga centers, like Prana Yoga.

Highlight of the time in Russia was the classical concert **Sounds of the Universe**, together with **Igor Goldenberg** on the church organ, at the **St. Peter & Paul Cathedral** in Moscow, combining gongs and church organ (*video*).

In May 2017, Konstantin moved to Ibiza /Spain, where he is offering his services exclusively to private customers.
